HODTS reserves the right to

- Reschedule or cancel class
- Change tuition
- Reject application with a full refund
- Change the course fees without prior notification
- Not be held responsible for hours lost because of power failures
- Deduct the admission fee in the cancellation of attendance
- Admission is solely at HODTS's discretion

Chemical Safety Disclosure (Only for the GEM Identification LAB)

The Occupational Safety & Health Administration (OSHA) recommends the use of good laboratory practices while using or being exposed to refractive index (RI) liquid, which contains diiodomethane. You will use RI liquid when using a refractometer, which you will come in contact with directly or indirectly in various courses, lab classes, or Student Workrooms. You may need to exercise special precautions if you are pregnant, if you have certain medical conditions, or if you have sensitivity to, or are allergic to, this chemical. If you are unsure, contact your physician for advice. GIA provides protective gloves and appropriate disposal containers in each classroom. The Material Safety Data Sheet (MSDS) is posted in each classroom, and GIA will provide a copy on request.

I _____ understand and declare that the above mentioned information is true and correct and I have taken note of the Chemical safety Disclosure
